-- As Reported by Exporters

Outstanding export sales as reported by private exporters and compiled with other data in this release give a snapshot view of the current contracting scene. At any given time in the course of a marketing year outstanding sales do not bear a consistent relationship to eventual export shipments. A meaningful export projection is not obtainable by the simple device of adding outstanding sales to exports to date. The latter data, alone, may provide a more reliable measure of current export activity than may be derived from a year-to-year comparison of outstanding sales.

COMMENTS PREPARED BY THE OFFICE OF THE GENERAL SALES MANAGER

EXPORT SALES REPORT

Comments on release of September 2, 1976 (based on reports from exports for the week ending August 22, unless otherwise noted):

Wheat: This week's report is highlighted by the announcement of a new wheat sale to the USSR (reported under daily sales) of 275,000 metric tons (MT), to be shipped after October 1. In addition, optional origin sales of 39,700 MT, including 16,600 MT of Durum, were declared as U.S. origin and shipped during the week. This brings total U.S. wheat sales to the USSR for shipment in the 1976/77 wheat marketing year to 2.1 million MT, of which 1,652.1 thousand MT is applicable to the new agreement. An additional 318.9 thousand MT has been sold for delivery in the 1977/78 marketing year and is applicable to the first year of the agreement. The total sales applicable to the first year of the agreement are now 1.971 million MT. Around 20,000 MT of optional origin sales were declared as other than U.S. and were cancelled.

Sales activity seemed to regain some momentum with total sales increasing 568,000 MT over last week. Significant sales were reported to Korea (both commercial and PL-480), Japan and Poland. Nearly 54,000 tons were switched from unknown destinations to East Germany.

Corn: Sales activity in the 1975/76 and 1976/77 marketing years continued moderate with total sales for each year registering an increase of over 200,000 MT. Significant sales of both old and new crop corn were made to The Netherlands while Portugal and Greece bought for the current crop year. The USSR purchased 50,000 MT for delivery after October 1, bringing their total to 2,703.1 thousand MT under the new agreement. Exports this past week were the lowest for the year.

Grain Sorghum: New sales activity during the week amounted to 232,000 MT with 81,000 MT to Poland, 26,000 MT to Japan, and nominal amounts to other countries. Exports continued heavy at 120,000 MT.

Rice: Rice sales for 1976/77 continued relatively slow last week with the exception of a sale of around 40,000 MT of PL-480 rice to Indonesia. Commercial sales continued slack with only minor activity in the important European and Middle Eastern markets. Exports continue to be principally business carried over from the old crop year.

Soybeans: The pace of exports picked up slightly from the previous week's due primarily to shipments to Japan which represented nearly 60% of the weekly total. Sales activity during the week was principally to the EC and Japan for 1976/77 delivery.

Soybean Oil Cake and Meal: The rate of weekly exports continued to decline with shipments to Eastern Europe representing over half of the total. Exports to the EC were nil as they continued to work down stocks of protein meal.

Cotton, Oats, Barley, Soybean Oil, and Cottonseed Oil: Showed no significant activity.
